1.0 PURPOSE

Article 12 of the *United Nations Convention on the Rights of Persons with Disabilities* is the critical driver behind supported decision-making.

This policy will eliminate the risk of decisions being made about a participant’s life without their involvement or against their actual or anticipated wishes. Decisions must be made with the consent of the participant.

The Lakeside Rooms puts choice and control squarely in the hands of people with disabilities, their families and carers.

The Lakeside Rooms will provide information in an easy read format for participants who require this communication style.

Consent Policy and Procedure

1.0 PURPOSE

The Lakeside Rooms must gain consent from the participant before sharing any information with family, advocates, other providers and government bodies.

Children under the age of 18 will need their family/advocate/guardian's consent to share information with other providers and government bodies. It is the responsibility of all workers to inform participants about their rights regarding the provision of consent.

2.0 SCOPE

All efforts should be made to obtain consent. When there are language or communication barriers, workers will ensure that all reasonable efforts have been made to overcome these, using available communication skills and technology, interpreters, relatives/carers and friends etc. Relatives may be consulted about the best ways to communicate or may be requested to assist with establishing the patient's values and preferences if the patient is unable to express these themselves.

Initial consent will be undertaken during their registration at the service. The prime responsibility for obtaining consent lies with the frontline worker who is to carry out the service. Consent can be sought by another individual if they have enough knowledge to give the right information and answer the patient's questions correctly.

Consent is equally valid whether it is expressed verbally, non-verbally (implied) or is written.

- *Implied consent* is adequate for most of the support provided by the organisation.
- *Oral consent* is enough for most interventions provided by doctors and other health professionals (such as commencing a manual handling process, use of complex medical procedures). Oral consent should be recorded in the support plan with relevant details of the discussion, the date and time of the entry, together with the name of the worker legibly written. Oral refusal of consent for any intervention must also be recorded in the support plan in the same manner.

- *Written consent* should be gained for the use of an advocate or to share information, by both the patient and the healthcare professional. Note: Participants automatically opt-in and must be asked to opt-out during NDIS audit requirements.
- *Photography*: Written consent will be obtained from any participant having their photograph taken.

3.0 POLICY

- The Lakeside Rooms recognises the importance of maintaining the privacy and confidentiality of all participants. There are times when it is essential to share information with other parties, such as government bodies and other service providers.
- The Lakeside Rooms will not give any information to person or authority without the participant's consent unless the disclosure is a legal requirement.
- The Lakeside Rooms will inform all participants (upon entry into the service) about their rights to privacy and confidentiality.
- The Lakeside Rooms will notify all participants that they have an opt-out option if their information is requested for audit purposes.

3.1 Guiding Principles

- People have the right to make decisions about things that affect their lives.
- People are presumed to have the capacity to make their own decisions and give consent when it is required unless there is evidence otherwise.
- People are supported to make informed decisions when their consent is required.
- Consent is obtained from the person, or a legally appointed guardian, for life decisions such as accommodation, medical treatment, forensic procedures, and behaviour support.
- Consent for financial matters is obtained from the person, or a legally appointed financial manager or the person appointed under a Power of Attorney.
- People are supported to identify opportunities to make decisions about their own lives and to build their decision-making confidence and skills.
- When support to make decisions is wanted or needed by the person, it is provided in ways preferred by the person and by a supporter of their choice.
- Support with decision-making respects the person's cultural, religious and other beliefs.

- If the person wants to be supported by natural supporters, such as family and friends, this is encouraged and facilitated.
- Support is provided in ways that uphold the person’s right to self-determination, privacy, and freedom from abuse and neglect.
- Decision-making and self-determination are not limited by the interests, beliefs or values of those providing the decision-making support.
- The amount or type of support required by people to make decisions will depend on the specific decision or the situation.
- People are supported to make decisions that affect their own lives even if other people don’t agree with them or regard the decisions as risky.
- People are supported to access opportunities for meaningful participation and active inclusion in their community where they want this.
- Information is provided in formats that everyone can understand, and enables the person, their supporters and other relevant people, such as legally appointed guardians, to communicate effectively with each other.

If a participant wishes to give consent to another person or organisation, then the following procedures are required to be undertaken:

1. Inform the participant that written or verbal consent is required to share any of their personal information.
2. Inform the participant that their consent can be withdrawn at any time.
